

Product Information

Sulfonion® N28A

(Sodium Lauryl Ether Sulfate (2EO) 27%)

Revision No. : 08 Effective date: Sep.26, 2019

Sulfonion® N28A Sodium Lauryl Ether Sulfate (2EO) that mainly use as surfactant for dishwashing, liquid detergent and body wash.

Chemical Name : Sodium Lauryl Ether Sulfate (2EO) 27%

INCI Name : -

General Characteristics

Classification : Anionic Surfactant

Standard Specification

Item	Unit	Specification
Appearance		White to slightly yellow, No foreign matter
Odour		Product specific
Color	Hazen	70 max.
pH (1%AI Solution)		9.0 -11.0
Active Ingredient	%	26.0 - 28.0
Sodium Sulfate Content	%	1.0 max.
Unreacted Oil Content	%	1.5 max.

Molecular weight : 380

Standard Package

ISO Tank : 20,000 kg.

IBC Tank : 1,000 kg.

Plastic Drum : 220 kg.

Main Application

Foaming agent for shampoo and body wash

Base or foaming agent for detergent
